Santana and his band (which also features Santana’s wife, Cindy Blackman Santana) will highlight songs from both his Supernatural and Woodstock eras, as well as newer tracks from his 2019 full-length album Africa Speaks and some
incredible surprises. Earth, Wind & Fire is one of music’s most celebrated musical forces in history with an iconic music catalogue that has been the soundtrack of millions of lives around the world.

“It is a great joy and honor to co-share music with the magnificent elements of Earth, Wind & Fire. We look forward to delight, joy and ecstasy!” says Santana. “I feel like a 20-year-old on stage playing with my band, and they deliver incredible energy on every song. When we hit the stage, we know we will touch your heart and make you dance, sing, cry, laugh and leave your worries and fears behind. The shows will feature the hits of yesterday, today and tomorrow...with energy!”

“We are excited to rock the USA alongside our friend Carlos Santana and his band with their off-the-chart musicianship and high energy show,” said EWF lead vocalist Philip Bailey. “We’re going to bring the mighty elements of the universe to the stage and take fans on a journey they’ll never forget. This is gonna be a blast!”

This past year, Santana celebrated the 20th anniversary of his revolutionary, multiple Grammy Award-winning album *Supernatural*, along with the 50th anniversary of his Woodstock performance. Santana’s 1999 album *Supernatural* featured the back-to-back No. 1 singles “Smooth” and “Maria Maria” and sold over 30 million copies worldwide, topping the charts in over a dozen countries and sweeping the 2000 Grammy Awards.

Earth, Wind & Fire was the first African American R&B group to receive the prestigious Kennedy Center Honor in 2019. Philip Bailey, Verdine White and Ralph Johnson continue the legacy of the band with career achievements that include nine Grammys, one being a Grammy Lifetime Achievement Award, and they were inducted into the Rock and Roll Hall of Fame in 2016. EWF’s music catalogue of singles and albums have tallied hundreds of millions of streams and sales worldwide and forever changed the history of music.
